- **Miscellaneous support of cervical cancer prevention**
There is no new miscellaneous cervical cancer prevention legislation. Cumulative score: 1.

State Summary

Indiana saw a slight decrease in its cervical cancer incidence rate and a slight increase in its cervical cancer mortality rate but its score on these indicators did not change relative to other states. Mortality for Black women is significantly higher than mortality for White women, although Black women are screened for cervical cancer at a rate almost 10 percentage points higher than the state average.
