- **Task force/commissions for cervical cancer prevention**
There is no task force or commission. Cumulative score: 0.
- **Miscellaneous support of cervical cancer prevention**
There is no new miscellaneous cervical cancer prevention legislation. Cumulative score: 1.

State Summary

Utah remains in the top tier in terms of cervical cancer incidence, although the incidence rate for Hispanic women is more than twice that for White women. The state saw a slight increase in its mortality rate, which caused it to lose one point. Utah falls into the bottom tier in terms of cervical cancer screening, both overall and for women who are uninsured.
