Women In Government Challenge to Eliminate Cervical Cancer Campaign

Toll-Free Info Line: 888-333-0164

www.womeningovernment.org/prevention

The *Challenge to Eliminate Cervical Cancer Campaign* was launched by Women In Government in January 2004. The initiative works to educate state legislators about cervical cancer and HPV and urges state legislators to address cervical cancer prevention by increasing access to the most advanced and appropriate screening technologies. In August 2004, Women In Government created the HPV and Cervical Cancer Policy Resource Center to provide up-to-date policy information on HPV and cervical cancer.

Advisory Committee on Immunization Practices

www.cdc.gov/vaccines/recs/acip/

The Advisory Committee on Immunization Practices consists of 15 immunization experts selected by the Secretary of the U.S. Department of Health and Human Services to develop recommendations for the routine administration of vaccines to children and adults.

The American College of Obstetricians and Gynecologists

www.acog.org

The American College of Obstetricians and Gynecologists (ACOG) is the nation's leading group of professionals providing healthcare for women. ACOG works in four areas: serving as a strong advocate for quality healthcare for women; maintaining the highest standards of clinical practice; promoting patient education; and increasing awareness of the issues facing women's healthcare.

American Medical Women's Association

www.amwa-doc.org

The American Medical Women's Association (AMWA) is the only national medical association dedicated to women physicians, residents and medical students. Representing women of all specialties, AMWA is dedicated to advancing women in medicine and improving women's health.

American Social Health Association

www.ashstd.org/hpv/hpv_overview.cfm

The American Social Health Association created the National HPV and Cervical Cancer Prevention Resource Center to address the lack of nationally available HPV and cervical cancer prevention information and resources.

The ISIS Project

www.theisisproject.org

The ISIS Project works to educate and empower black women about cervical cancer and HPV, and provide them with information on the need for regular screening to ensure early diagnosis and treatment. As the next phase of The ISIS Project, The Balm In Gilead has developed a cervical cancer awareness campaign called Spread the Word! Save A Sister!

C-Change

www.c-changetogether.org

C-Change is comprised of the nation's key cancer leaders from government, business, and the nonprofit sector. The underlying principle of C-Change is to leverage the leadership and expertise of all sectors of society to eliminate cancer as a major public health problem at the earliest possible time.

Centers for Disease Control and Prevention

www.cdc.gov/cancer/cervical/

www.cdc.gov/std/hpv/

The Centers for Disease Control and Prevention supports activities to reduce the burden of cervical cancer that include screening, tracking, follow-up, case management, partnership and professional development, and public education and outreach.

Centers for Disease Control and Prevention Pre-Teen Vaccination Campaign

www.cdc.gov/vaccines/spec-grps/preteens-adol/07gallery/

The Pre-teen Vaccine Campaign includes materials in English and Spanish to educate parents and providers about the three important pre-teen vaccines, including the HPV vaccine.

Coalition of Labor Union Women

www.cluw.org/cervcancer.html

Cervical Cancer Prevention Works is the Coalition of Labor Union Women's cervical cancer awareness project. The project's mission is to empower union women by providing them with information on how to prevent cervical cancer.

Resource Partners and Stakeholders

Gynecologic Cancer Foundation

www.thegcf.org/

The Gynecologic Cancer Foundation was established in 1991 by the Society of Gynecologic Oncologists to promote public awareness about the prevention, early detection, and treatment of gynecologic cancers.

Hadassah

www.hadassah.org/

Hadassah's initiative, "Healthy Women, Healthy Lives," serves as the umbrella for the entire Women's Health program. This comprehensive program brings a focus on wellness to the community. It provides substantive educational information on exercise, nutrition, prevention and early detection of diseases that affect women, including cervical cancer.

Immunization Action Coalition

www.immunize.org/

The Immunization Action Coalition works to increase immunization rates and prevent disease by creating and distributing educational materials for health professionals and the public that enhance the delivery of safe and effective immunization services.

The International Union Against Cancer (UICC)

www.uicc.org/

The UICC is the leading international non-governmental organization dedicated exclusively to the global control of cancer. Its vision is of a world where cancer is eliminated as a major life-threatening disease for future generations. The UICC is one of the coordinating members of the Global Call to Stop Cervical Cancer. The Global Call to Stop Cervical Cancer is a movement to raise awareness about, and galvanize the necessary action to ensure rapid access to, life-saving new technologies for women and girls around the world, including HPV vaccines as well as cervical cancer screening and treatment programs.

National Education Association Health Information Network

www.neahin.org/about/index.html

As the nonprofit health affiliate of the National Education Association, the NEA Health Information Network (NEA HIN) provides health and safety information to 3.2 million educational employees and students it serves. NEA HIN addresses numerous health and safety issues that affect NEA members and students.

National Lieutenant Governors Association

www.nlga.us/web-content/Projects/End_Cerv_Cancer_Main.htm

The National Lieutenant Governors Association is engaged in a multi-state cervical cancer public health education campaign. The first phase, "Ending Cervical Cancer in our Lifetime," aimed to educate constituents in 11 states about the preventable nature of cervical cancer. The second phase of the campaign will expand to 15 or more new states.

National Network for Immunization Information

www.immunizationinfo.org/vaccineInfo/

The mission of the National Network for Immunization Information is to provide the public, health professionals, policymakers, and the media with up-to-date, scientifically valid information related to immunization to help them make informed decisions.

Tamika and Friends, Inc.

www.tamikaandfriends.org

Tamika and Friends is a national nonprofit organization designed to raise awareness about cervical cancer and its link to HPV through a network of survivors and their friends.

Vaccines for Children Program

www.cdc.gov/vaccines/programs/vfc/

The Vaccines for Children program is a federally funded program that provides vaccines at no cost to children who might not otherwise be vaccinated because of inability to pay.

Women's Cancer Network

www.wcn.org

The mission of the Women's Cancer Network (WCN) is to keep women informed and to enable them to be their own health advocates. The WCN is an interactive web site dedicated to informing women around the world about gynecologic cancer.

The Yellow Umbrella Organization

www.theyellowumbrella.org

The Yellow Umbrella Organization was founded by a young cervical cancer survivor to get people talking about cervical health and cervical cancer prevention.
